### MARKET LEADER TRACKS SUCCESS WITH ANOTHER TOP 100 WIN

Cost recovery specialist Copitrak is continuing its recession-defying run of success with the news that it has just gone live with another top 100 law firm, Davies Arnold Cooper.

Davies Arnold Cooper went to market and selected Copitrak after a period of detailed product evaluation. An in-house trial was immediately begun to give Davies Arnold Cooper the opportunity to see both the technical solution and projects team at work and to assess whether they were indeed the right fit for their operational needs going forward.

The trial gave Davies Arnold Cooper the confidence to push on with a major system swap out, with Copitrak rolling out its Copy module embedded into eCopy for single sign-on, plus Copitrak Print for nearly four hundred users. With the previous system not supporting print capture, this new functionality has gone down well with fee earners keen to see what has been tracked. IT director David Hamilton commented:

"The quality of the technology and the calibre of the projects and support teams have assisted our cost recovery strategy. Copitrak's professionalism and responsiveness throughout plus the comprehensive, feature-rich nature of their solutions mean that we can now push on in the areas of cost control and expense management with a refreshing degree of certainty."
